

## Product Brief: Performance Broadloom

### **Performance Broadloom is an integrated soft surface floor covering that offers the highest rated performance and aesthetic characteristics in the industry.**

The exclusive technologies utilized in the manufacture of Interface 2-meter Performance Broadloom yield a product with exceptional dimensional stability and long lasting appearance retention. No need to worry about frayed edges, stretching, shrinking or rippling. Performance Broadloom is an ideal solution for the Health Care and Educational environments when an impermeable moisture barrier is a must.

#### Features and Benefits

**F) Performance Broadloom features an exceptionally dense loop construction.**

**B)** The low, dense face construction of premium, solution-dyed nylon assures durability, stain resistance, and long-term appearance retention.

**F) Intersept® antimicrobial preservative is permanently incorporated into all Performance Broadloom products.**

**B)** Intersept is a patented antimicrobial preservative that is registered by the EPA for use in preserving carpet. Intersept provides protection against a broad spectrum of bacteria and fungi, including odor and stain-causing molds and mildews in carpeting. Microbial growth is a proven contributor to carpet degradation. Preventing microbial growth also prevents odors and staining from these sources.

**F) Performance Broadloom's structured backing and permanently welded seams create a monolithic surface, along with an impermeable moisture barrier.**

**B)** The impermeable moisture barrier prevents the absorption of spills. Fluids and biological contaminants are kept on the surface for easier removal.

**F) Performance Broadloom meets State of Washington Protocol, CRI Green Label, and GSA Antimicrobial certification requirements.**

**B)** Certification and compliance with these nationwide benchmark testing protocols helps assure that there will be no Indoor Environmental Quality problems related to the floorcovering installation.

**F) Protekt<sup>2</sup>® permanently incorporated into all Performance Broadloom products.**

**B)** Protekt<sup>2</sup> adds dual anti-stain and anti-soil performance, which simplifies the cleaning process and extends the useful life of the product.

**F) Performance Broadloom is easy and inexpensive to maintain.**

**B)** The simplified cleaning processes lower the cost of maintenance, and provide significant cost savings when compared to hard surface floors.

**F) Performance Broadloom is installed using a releasable adhesive system.**

**B)** A releasable system allows for easy repair, replacement and removal.

**F) Performance Broadloom provides the ergonomic benefits of a soft surface floor.**

**B)** The soft surface reduces the incidence and severity of slip/fall accidents. Performance Broadloom meets the ADA recommendations for slip resistance, absorbs sound and reduces glare. Each of these factors may add to the safety of the building, and helps create an environment conducive to learning, healing and working.

**F) Interface Flooring Systems offers a broad range of two-meter Performance Broadloom products.**

**B)** Interface's award-winning product offering allows maximum design flexibility and styling options.

**F) All Interface Performance Broadloom products come with a 15 year full term, non-prorated warranty.**

**B)** The 15 Year Warranty protects against excessive surface wear, edge ravel, delamination, stretching, shrinking and static electricity. Please see the warranty for details and limitations.
