

I DON'T HAVE DYE LOTS.

- i2 modular carpet always matches, no matter when it's purchased or installed.
 - Ideal for multi-phased projects because you can install rooms and corridors on different schedules.
 - Damaged or soiled tiles can be replaced inconspicuously.
 - In-house staff can do routine repairs inexpensively.
- Minimal attic stock means less upfront investment.
 - Reduced paperwork and tracking.
 - Fewer material management hassles.
- The only mergeable flooring in the carpet industry.

These 9 tiles from six different dye lots and two different manufacturing facilities are indistinguishable from each other.

Typical roll carpet. All the same style. All the same colorway. Four different dye lots.
